

## Doggie Safety Slumber Pads “Non Skid Backing”

After a hard day’s work of having the old nose to the ground, I look forward to returning to my Pad for relaxation. Since my owner purchased one of Sam’s Dog Hut Slumber Pads, no more worries of slipping and sliding. Sam’s Dog Hut Slumber Pads has an Extraordinary Non-Skid backing that works well on any kind of surface. Unlike others, this backing grips onto and holds itself in place. Also, the backing is extremely durable and water repellent and can easily be machine wash and line dry. In addition, they use a cross-stitch quilting technique that assures non-shifting of fiber fill material. There is nothing more uncomfortable than having something lumpy and bumpy for your rumpy. In addition, many of Sam’s Dog Hut Slumber Pads are made with anti-pill and micro-velour fleece, for which is great for resisting wear and tear and yet soft as a puppy’s behind. Also, if you like Camo, checkout their Camo by Realtree® Slumber Pad lines, for many of their Camo prints are poly/cotton, fleece, or a water resistant nylon, for which is great for boats, canoes, duck blinds or in the back of a pickup truck.

**Available in a Variety of Stylish Prints & Sizes**
